

# Signing Up for the Cloud Skills Challenge

## 1. Create a Microsoft Learn Account

- a. Go to <https://docs.microsoft.com/en-us/learn/> and click “Sign in”

- b. You should be presented with the standard Microsoft login where you can optionally use your corporate credentials or a Microsoft ID like Hotmail, etc.
- c. Once you've successfully logged in, click on your profile username in the upper right-hand corner (see image below) and then click profile in the pop out menu.

d. Locate your Microsoft Learn username and copy it for use in the next step.

Apply and monitor infrastructure standards with Azure Policy  
31 min remaining • Module • 3 of 8 units completed

Beginner Developer Azure

## 2. Register for the Cloud Skills Challenge Leaderboard

- Go to the registration page provided by your account team or the Cloud Skills Challenge team. The link should look something like <https://cloudskillschallenge.com/Public/Contests/b1547f3a-1c20-45e0-875d-15050697f19d/Register>. Once there, enter your Microsoft Learn username (i.e. alexclowe1) in the registration textbox, agree to the terms, and click “+Add.” You are now registered for the Cloud Skills Challenge!

**Challenge Participation Acknowledgement:** The user information you provide (including your username, display name, avatar image, biography, your job title and organization and your user achievements) may be viewed by others for purposes of conducting a learning challenge. You are only required to provide a username and display name in order to participate. Microsoft may also collect and publicly display your learning activity to the challenge leaderboard during the specified duration of the challenge. Your privacy is important to us. Please read our [Privacy Statement](#) as it describes the types of data we collect from you and your devices, how we use that data, and the legal bases we have to process that data.
